

## **PUBLIC WARNING MESSAGE**

Date:	2023/10/16	Issuance Time:	04:02 PM
Event:	Hot Spell	Message Type:	Update
Headline:	HOT SPELL ALERT DISCONTINUATION– GREEN LEVEL		
Area Description:	Trinidad and Tobago		
Start Date/Time:	2023/10/09 10:25 AM	End Date/Time:	2023/10/16 04:00 PM
Urgency:	Immediate	Response:	Monitor
Severity:	Moderate	Certainty:	Unlikely
Description:	As Trinidad and Tobago approaches the end of the heat season, the likelihood of extended periods of extremely high daily temperatures has significantly decreased. This is due to anticipated cloudy and/or rainy conditions associated with wet weather meteorological features over the coming days. The daily temperatures are forecast to be warm as usual for the rest of October.		
Instructions:	Continue to monitor the weather conditions, stay hydrated, and visit our website for the latest weather forecast and alerts.
